TEOH ZI HENG

EXPERIENCE

AstraZeneca

Innovation & Strategy Intern Jan 2025 - May 2025

- Partnered and communicated with trainers and internal stakeholder to support digital upskilling programs for 100+ participants, enabling adoption of self-service reporting and automation tools, resulting in improved workflow efficiency and stronger data-driven decision-making culture.
- Consulted on and supported over 40 automation and data analytics projects within the finance function in Kuala Lumpur, enabling smoother financial reporting and decision-making, and providing stakeholders with a more comprehensive view of the company's financial processes.
- Developed and implemented automation solutions across multiple departments, saving an estimated 10-200 working hours annually per project.
- Delivered over 15 automation initiatives, including SAP Data Extraction, BSR Automation, OCR Systems, Automated Inquiry Resolution Platform, and Leaver Tracker, collectively enhancing process efficiency and reducing manual workload.

OTHER INITIATIVES

Final Year Project

July 2024

Social Media Sentiment Analysis on Taylor Swift's The Eras Tour Announcement in Singapore

- Conducted large-scale sentiment analysis on social media data to evaluate public reactions toward the concert announcement.
- Managed to deliver valuable insights through an analytical report on audience emotions and engagement trends, where we identified key behavioral patterns and engagement preferences from the data.
- Communicated sentiment trends and engagement behaviors through data visualization and storytelling, helping audiences better understand the public reaction and overall impact of the announcement.
- Utilized R Studio for text mining and sentiment classification, and Tableau for data visualization and insight presentation.

Data Spark Competition

May 2024

Top 6 in Data Spark Competition

- Achieved Top 6 in the competition by analyzing global QS university datasets to identify trends in international student distribution, research output, and institutional performance.
- Collaborated in a team to deliver data-driven insights and present findings on stage to judges and participants, demonstrating strong analytical and presentation skills.
